s.37

We've got to stop the spread to Niagara and Sarnia

What I recommend, and I want to work with you, I've asked the AG to examine any other tools for the police, any legal remedies.

When I spoke to the Ambassador, and the Governor, they couldn't believe I couldn't direct the police Just throwing any legal remedies we can at them

We can't pull their licenses, we checked

PM – shouldn't need more legal tools, they're parked on the road.

Ford – If I could drag them out, I would.

PM – you're saying the OPP can't help out? FORD – I'm saying I can't direct them. It's up to the OPP

Ford – what they have to do is locally request OPP support. Other problem is no tow truck wants to tow the rigs

PM – Has Windsor formally requested support from the OPP?

FORD - They put that submission into the OPP, from there, the OPP will work with the Windsor police. I spoke to the Mayor.

PM – I asked the RCMP – What I told them is be ready to respond to any request. Some regulation was changed and I'll follow up if it

If you don't have tow trucks, we can send you two trucks.
